

How to Use the Connection Gathering Space

Welcome in! A free, private room for adult youth leaders to ask, encourage, and stay in touch.

Getting started

1 Confirm your email. Click the link in the welcome email we sent you (check spam if you don't see it).

2 Sign in at qrprogramming.com/livingroom and tap **Sign in** at the top.

3 Open the Gathering Space. The bar across the top (a 🗨️ **Gathering Space** menu on phones) takes you everywhere.

The four things you can do

Inbox

Your private conversations with Ron and with other members. A red number means something new is waiting.

Ask everyone

Post a question or encouragement for the whole group, and reply to others. Ron reviews new posts before they appear.

Ask Ron

A private question just for Ron. Only he sees it, and his reply comes back to your Inbox.

Message a member

Choose a fellow leader from the list to encourage, swap ideas, or pray for each other. Only the two of you see it.

Writing a message

- Tap  **New message**, pick who it's for in **Send to**, add a short subject, and write.
- Prefer to talk? Tap the **microphone** in any text box and speak.
- Open a conversation and use the box at the bottom to reply.

Your settings (My account)

- **Be listed for messages:** let members find you (only your name and church show, never your email).
- **Message emails:** get a note when someone writes you. It never includes the message itself.
- **Resource Updates:** occasional emails about new guides and tools.

Keeping it safe for leaders and students. Never share a student's full name, school, or identifying details. Use **Report** on any message that concerns you, and **Block** anyone you don't want to hear from (they aren't told). This is not a crisis service: if someone is in danger call **911**, for a mental-health crisis call or text **988**, and follow your church's policy for reporting abuse.

I'm so glad you're here. Pull up a chair, ask what's on your heart, and let's encourage one another.
— Ron Whittam
